About this release

This document contains important information about the current release. We recommend that you read the whole document.

This release contains all hotfix solutions released for McAfee® Endpoint Security for Mac 10.5.x.

Resolved issues

The current release of the product resolves these issues. For a list of issues fixed in earlier releases, see the Release Notes for the specific release.

Reference	Issue description
1260822	The files added to the on-demand scan exclusion policy are excluded now.
1260235	This release resolves the policy enforcement issue of locking the client interface using the Common Policy.
1260300	The intermittent kernel panic issue is no longer experienced.

Installation information

You can install the software on standalone systems and systems managed with McAfee ePO.

McAfee Endpoint Security for Mac 10.5.8 supports upgrading from 10.2.3 and 10.5.x. For installation and product usage, you can continue to refer McAfee Endpoint Security for Mac 10.5.5 documents. You can access the product documents at docs.mcafee.com.

You can download the products from the McAfee products [download site](#) using your grant number.

To use McAfee® Endpoint Security Adaptive Threat Protection (ATP) for Mac 10.5.8, you must install or upgrade to McAfee® Endpoint Security 10.5.8.

Known issues

For a list of known issues in this product release, see [KB85855](#).

Getting product information by email

The Support Notification Service (SNS) delivers valuable product news, alerts, and best practices to help you increase the functionality and protection capabilities of your McAfee products.

To receive SNS email notices, go to the SNS Subscription Center at https://sns.secure.mcafee.com/signup_login to register and select your product information options.

Where to find product documentation

Go to docs.mcafee.com to find the product documentation for this product.

Go to support.mcafee.com to find supporting content on released products, including technical articles.
