What's new in 10.7.5 release

Update releases can update platform support.

Support for macOS Big Sur 11.0

This release supports the macOS Big Sur 11.0 operating system.

McAfee Endpoint Security for Mac supports Apple Endpoint Security APIs and Network Extension. It does not use kernel extensions.

- You must provide full disk access to McAfee processes. For more information, see McAfee Knowledge Base article [KB91109](#).
- You must allow system extension and content filter for Firewall to work properly. For more information, see McAfee Knowledge Base article [KB93600](#).
- The following features are not available in this release:
 - **Common** — Self protection
 - **Firewall** — Adaptive mode and FTP inspection features

Resolved issues

The current release of the product resolves these issues.

For a list of current known issues, see McAfee® Endpoint Security for Mac Known Issues [KB85855](#).

Reference	Resolution
TSDE-6112, TSDE-6155, and TSDE-6160	McAfee Agent Status Monitor now automatically installs the helper tool without requiring any user intervention.

Installation instructions

You can install the software as a fresh installation or upgrade the software from McAfee Endpoint Security for Mac 10.6.5 and later versions.

If you want to upgrade from macOS Mojave (10.14) to macOS Big Sur (11.0), you must:

- 1 Upgrade your operating system to macOS Catalina (10.15.6 and later)
- 2 Install McAfee Agent 5.6.6 HF1 (version that supports Big Sur 11.0)
- 3 Install McAfee Endpoint Security for Mac 10.7.5
- 4 Upgrade to macOS Big Sur 11.0

This release does not support upgrading the software from McAfee Endpoint Security for Mac 10.2.x, 10.5.x, and 10.6.0 - 10.6.4 versions.

This release supports these macOS:

- macOS Big Sur 11.0 and later
- macOS Catalina 10.15.6 and later

McAfee Agent 5.6.6 HF1 is the minimum supported version for McAfee Endpoint Security for Mac 10.7.5. Before upgrading the McAfee Endpoint Security for Mac, you must first upgrade McAfee Agent.

For information about installing or deploying the software, see *McAfee Endpoint Security for Mac 10.7.5 Installation Guide*.
